EXPERIENCE

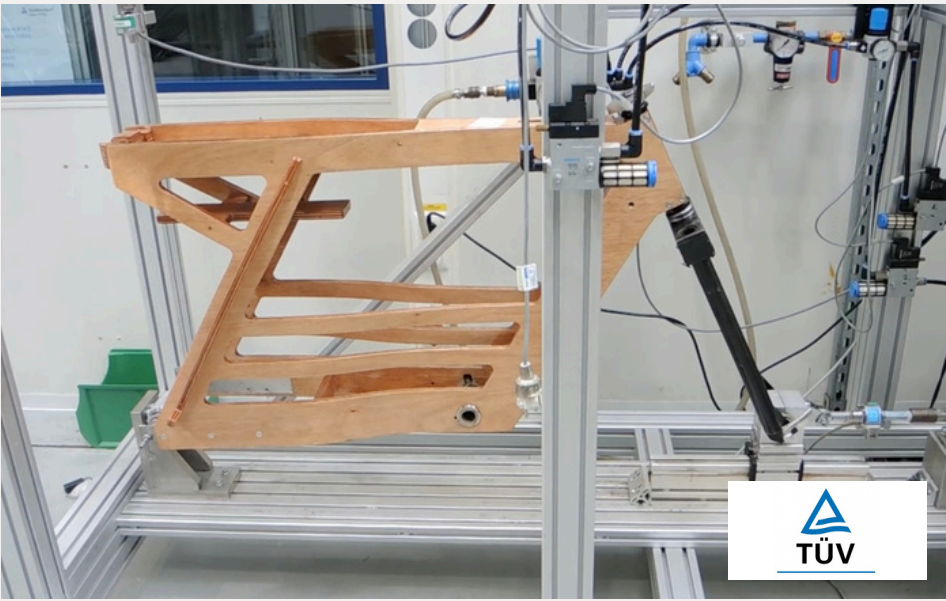

splinter

The wooden frame and electric drive not only make the bike stylish, but also lead to optimal performance. Whether you are riding in the city or through nature. Riding on a wooden bike affects your riding experience: you get the feeling that you are floating over the road.

- Bafang motor (250W),
- Up to 25 km/h
- Battery 840Wh
- Range 70 km
- Magura hydraulic discbrakes

splinterbikes.nl/en/specifications

SAFETY

The wooden frame is super strong, as evidenced by the impact and durability tests it passed without any problems at TÜV/TNO. And of course, the Splinter complies with Dutch and European laws and regulations (NEN 15194).

Finally, you can expand your bike with our anti-theft options, so your bike is always protected, wherever you are.

- ART2 lock
- Alarm
- GPS-tracker
- Insurance

SUSTAINABILITY

With every bike we make the world a little more beautiful. Perhaps lofty, but that's what we're aiming for. In addition to making beautiful bikes, we want to be a company that cares about the environment and has social responsibility.

We work as much as possible with social enterprises, produce in the Netherlands and plant trees to compensate for what we don't do so well yet.

But the most sustainable thing is to use our things for longer. We're taking that on together with you through our life-extension package, which extends the life of your bike.

CUSTOMIZATION

You can further customize a Splinter Bike to your taste. Do you have ideas on what your buddy seat should look like, different handles or tires, it can all be done.

And if you're buying the bike for business, you might want your logo on it or the saddle in your company color. Just let us know, we're happy to work with you.

CONTACT

Do you want to experience for yourself what it's like to ride a Splinter Bike? Book a test ride easily. Do you have any questions or want to place an order directly? Then contact us.
